## ***Discontinuation of GEA Varinline® Housings***

Dear optek-Distributor,

We need to inform you that Varinline® Housings (0100-xxxx-28) are going to be discontinued by optek Danulat-GmbH (not by GEA!) with immediate effect.

There will be a last time buy (LTB) option for our customers until 2024-12-31.

I.e. even your orders are exceeding our stock we are able to buy the housings in order-specific quantities without list price changes for our customers.

There won't be a spare availability after the LTB due to catalogue availability.

- All open offers and orders will be fulfilled.
- For all new offers, please clarify with your responsible sales person about any possible stock availability
- Varinline window holders (Tuchenhagen and optek) will both still be available.

In case of any questions feel free to contact us.

Best regards,  
your optek-Team
